PROFESSIONAL SUMMARY

Full-stack developer with production experience in Laravel, Vue.js, and MySQL, building REST-backed internal tools, integrations, and admin experiences. Currently contributing to mobile app delivery with Flutter at Innovare TI while keeping a strong web stack. Focused on clear APIs, pragmatic testing (including Postman), Git-based collaboration, and maintainable releases. Portfolio with live samples: brunocodes-5faa74deced4.herokuapp.com

CORE TECHNICAL SKILLS

PHP, Laravel, Vue.js, JavaScript/TypeScript, Flutter (current app work), MySQL, REST APIs, Git/GitLab, Bootstrap, Tailwind CSS, HTML/CSS, Scrum. Exposure: Java, Python/Spring Boot, MongoDB, WordPress, Django (supporting contexts).

PROFESSIONAL EXPERIENCE

Innovare TI - Full-Stack Developer

April 2023 - Present | Digital transformation agency (web, mobile, integrations)

- Ship end-to-end web features with Laravel and Vue.js (auth, CRUD, uploads, PDFs, integrations).
- Improve reliability via structured API testing with Postman and clearer backend contracts.
- Collaborate in Git/GitLab with agile delivery; support stakeholders on production systems.
- Contribute to Flutter mobile projects (API-driven UI, navigation, release-oriented structure).
- Note: TOTVS Fluig is part of the company portfolio; my day-to-day delivery is Laravel/Vue/Flutter, not Fluig.

TradeUp Group - Full-Stack / Support

March 2022 - October 2022

- Level-2 technical support plus agile development in PHP/Laravel.
- Optimized MySQL queries and backend logic; improved stability for daily operations teams.
- Built responsive UI with Bootstrap, HTML, and CSS.

EDUCATION

Systems Analysis and Development - Anhembí Morumbi University (2023-2025). Program completed (graduated).

LANGUAGES

English: upper-intermediate (B2), working toward C1 - comfortable with async technical communication.

French: basic (studying). | Portuguese: native.

PROFESSIONAL DEVELOPMENT (ALURA - SUMMARY)

Long-form curriculum completed online (backend + frontend + tooling). Highlights: PHP OOP and exceptions, PHPUnit/TDD, Laravel (queues, mail, uploads, testing), SQL/MySQL, MongoDB basics, HTML/CSS, Bootstrap, Tailwind, JavaScript, web accessibility, HTTP, Java/Dart fundamentals, Django intro, WordPress, Excel, CLI, and AI foundations track. Full course list available on request or via LinkedIn.

ATS / SUBMISSION NOTES

- PDF uses standard fonts and a single-column linear layout for parsers.
- Keywords: full-stack web, Flutter mobile, REST, MySQL, Git.
- Open to remote roles for Canadian employers; work authorization to align with the employer.
